Frontend development involves creating the parts of a website or application that users interact with directly. This includes the layout, design, and functionality visible to users in their web browsers or mobile devices.

OBJECTIVE

Aspiring web developer passionate about creating responsive and user-friendly web applications. Proficient in HTML, CSS, Bootstrap, JavaScript, and React.js, with hands-on experience in building interactive and dynamic interfaces. Seeking opportunities to leverage technical skills and creativity to contribute to innovative web development projects.

PROJECTS

- E-commerce : Frontend in eCommerce refers to everything the customer interacts with while shopping online.
- Blog : Here are some steps and considerations for building a frontend for a blog.
- Portfolio : Here's a structured approach to building an effective frontend developer portfolio.
